

The Guttenberg Housing Authority would like to take this opportunity to address the Coronavirus (COVID-19).

According to the Center of for Disease Control and Prevention (CDC), the immediate health risk from COVID-19 is still considered low. That being said, the Guttenberg Housing Authority takes the health and safety of all its tenants very seriously.

In addition to our normally high standard for cleaning common areas, we have increased the rate of which we clean, especially high touch points including door knobs, handrails, and elevator as an example. However, the health and safety of our community is a shared responsibility. As a reminder, here are some ways you can help:

- Stay home when you are sick
- Avoid touching your eyes, nose and mouth
- Cover your cough and sneeze with a tissue, then throw the tissue in the trash
- Wash your hands often

Should recommendations from the CDC and other local health officials change, we will be sure to act accordingly and inform you.

We appreciate your cooperation.
